

# Pre-packed Screen

For a successful development well in fine sand or hard formation and mainly in deep well depth where the gravel pack install is difficult almost impossible; it is suggested to use ENERPEC pre-packed screen which offer the benefit of:

- A small bore hole
- A thinnest gravel pack already installed
- A guaranteed result

Pre-Packed Screen Standard Product Sizes

Pipe Base				Int. Wire Screen		Ext. Wire Screen	
O.D.		Perforation Size		O.D.		O.D.	
in	mm	in	mm	in	mm	in	mm
4	101,6	0,375	9,53	4,50	114,3	7,00	177,8
